3. heat eight with a 4-2, Hunt giving Witham his second taste of defeat. Norwich again levelled in heat 10 and took the lead for the first time in heat 12. With the nominated left, the visitors held a two point lead. The nom was a triumph for Witham. He won the race, won the match, gave Chris Hunt his only defeat, and gained personal revenge over Hunt. With Grant unable to make any impression on Witham either, it was a 3-3 and a two point win for Norwich.

1966 season. WEEK FOUR SUMMARY.

Two of the three First Division matches were really close. At Tolworth it looked as though Hackney would create the first sensation of the season. At one time they were ten points up against the Tudors, but with the result resting on the nominated heat, lost by two points, 47-49. Another thriller at Southend as always when Uxbridge are the visitors. This time it was the Eagles who claimed victory by 50-46. Despite eleven points by Graham Swan, Hungerford could not match Whipps Cross at Temple Mills Lane. Joe Morement and Bill Kemsley were unbeaten in Comets' 60-36 victory.

A couple of big scores proved that the Second Division is more variable than the first. Luckless Epping were again onto a walloping, at the hands of White City. Ron Watters, Colin Wheeler, Brian King, Johnny Hill and Jess Brookes were all unbeaten in Racers' 75-21 win. John Mealing took two tumbles in as many heats and had to receive first aid. Bushey completely outrode the Aces at Tolworth to the tune of 72-24. Saints even admit that Tolworth were way off form. Brian Gillett, Pete Saunders and Frank Males were all unbeaten. Uxbridge Lions put up a good show at Estuary, despite going down to the Rockets 40-56. They pressed their more experienced opponments all the way. Wembley kept up their winning run with a 54-42 win at Hawbush. Things were very close at first before the Lions could pull away. Chris Hunt was unbeaten. Things were close halfway through the match at

 Hendon where Newham were the visitors. The Aces pulled away in the second half to win by a 59-37 margin.

Chris Hunt maintained the Second Division Match Race at the expense of Hawbush's Brian Vickers.

In the National Champions Trophy at Hungerford, Southampton lost to Offerton Devils by 41-55. Vikings' league match with Raynes Park, which had been brought forward by 20 hours was washed out.

ON THE SPOT REPORTS.

Div 1. TOLWORTH TUDORS 49 HACKNEY CHEETAHS 47

This was a grim fight with Tudors pulling back to win by two, after Hackney had been ten points ahead at heat six. Pete Page scored most of his points from behind, beating Vic Haines in this way in heat seven. Chris Gale is really showing some form now, his gating being especially good. Vic Haines was his usual self for Hackney, while Tony White was unbeaten by the opposition until he fell in the nominated. Eric Hemsley had an unlucky afternoon, falling three times. (LK)

Div 2. HENDON ACES 59 NEWHAM HAMMERS 37

This match was ridden in a mass of puddles and slush after heavy rain had fallen just before the start. Hendon took a two point lead in heat three, but two heats later Newham took the lead with a 5-1 after Russell had collided with Vaughan, causing him to fall. Two 5-1's and a 4-2 in the next three heats put Hendon back into the lead. Newham pulled two back in heat nine, but Hendon hit back with two 5-1's and two 4-2's in the next five heats with one shared, then rounding off with a 5-1 in the nominated. Best for Hendon were partners Brooks and Wallis with 23 points between them. Tulloch was top scorer for Newham with 10. (SR)

Div 2. TOLWORTH ACES 24 BUSHEY SAINTS 72

Aces were too bad to be true. Bushey led from the gate and that was that in nine races out of

ten. Johnny Gould and Dick Naylor were Tolworth's only heat winners. Saints scored eleven 5-1's with the Gillett brothers, Pete Saunders and Frank Males unbeaten by the opposition. (LK)

BOTTOM OF THE PAGE.

So Wembley are to have a super track. Shale surface, banking, floodlights, spactator aids, etc. To be ready for 1967.

Terry Redmond had taken over as Manager of Stonebridge Vikings for the Middlesex Independent League. In-out Hendon now appear to be out. Bushey, who entered two teams last year, now have no juniors at all so they are out. White City are loaning their excess riders to Acton, who enter for the first time. White City, Uxbridge and Watford have re-affiliated.

WEEK FIVE SUMMARY

The First Round of the National Team Championship saw few surprises. Estuary struggled at Eaton with seven riders before emerging winners by ten points. Tolworth gave Bushey their first defeat of the season. The 73-23 scoreline indicates the difference between the first and second divisions. Southampton defeated Hungerford by 70-26 and Hackney beat Newham. Uxbridge won a thriller at Whipps Cross by four points, 50-46. Bucklebury found Henson a handful but managed a 51-45 win. Another exciting match at Hawbush resulted in a win for Raynes Park 51-45.

In the League, Eppping gave their best performance to date, losing by only nine point to Tolworth Aces at Well Street. Wembley suffered their first loss of the season at Southend against Estuary Rockets. Despite an unbeaten tally by Bren Harper, it was a 50-45 win for Estuary. Uxbridge Lions rode excellently against White City and their 41-55 loss gives them full credit for their efforts.

HOME COUNTIES K.O. CUP - ROUND 1.

Uxbridge Pirates were in no difficulty at Estuary, winning 67-29 against the Rockets. The home could only muster seven riders. The Eagles visited Hawbush and won comfortably 67-29. Hendon put out only six riders against Tolworth Tudors and at one stage were actually winning! Numbers told in the end, however, with Tudors winning 62-34, Pete Rides notching a fine 15 point maximum. Raynes Park were unable to hold Southampton and went under to the tune of 25-71. Messrs., John Mills, Burton, Hocking, Jennings, Rod Mills and Dennis were all unbeaten. This match counted for the League also. Wembley never recovered fully from two 5-1's against in the first two heats against Ducklebury. The result was a 54-42 win for the Robins. So all first division sides beat all second division sides.

WHAT COULD BE WORSE ?

(Continued from page one)

And what is more frustrating than waiting about for late opponents?

WHAT IS WORSE than a rotten track? It takes all the pleasure out of racing. Some tracks will never be good for various reasons. But at least clubs can make their tracks as good as circumstances permit. If karts wreck your track then it is obvious that the track will be bad. On the other hand it is no use just doing nothing. At least the club can try to make it as f t as possible. And is a ripped surface an excuse for wild grass and weeds inside and outside?

WHAT IS WORSE than a match without a steward. Finding a home steward is not easy. But most clubs put themselves out to find one- and usually succeed. Few are the men willing to give up their time to steward a match and receive a load of abuse for their decisions. Clubs must regard the need for a steward in the same way that they need riders. Have you seen riders actually taking part in the match going out to steward? It has happened twice recently. This did not even take place in the bad old days of the North West Middlesex League. There are a dozen good reasons why persons should not race and steward in the same match.

WHAT COULD BE WORSE than all of the above unsatisfactory items happening on one track on the same day? Because it did!

TRACKS NOT BLACK

When the National Secretary revealed that several Home Counties tracks had not been granted licences, it was thought that the League has various black tracks within its orbit. These include Bushey, Wembley, [illegible], White City, Newham and Estuary. The National Press Officer, Mrs. Mansbridge, said that the tracks were not black, but as the tracks had not been yet inspected by the Tracks and Stewards Committee, they obviously could not be granted licences. But is this any consolation to riders (except Estuary) who know that they can never receive a home draw in the National Individual rounds?

WESTWARD HO !!
by Roger Seymour

Two of Hungerford's experienced riders, Bob Merrett and Bob Hollister have definitely retired. Bob Merrett feels the pace in Division One is too tough. Pity really, Hungerford could certainly do with his steady scoring.

Bucklebury are hoping Mick Watts will be riding regularly for them. Mick rode in Norwich for sometime last season. The Robins are still not over blessed with riders, but they have several promising youngsters who should benefit from regular racing.

Even at this early stage of the season, Estuary Eagles are commanding a lot of respect. They have a fine side which should go places. They gained an important win over Uxbridge Pirates 50-46 and meet them again in the Knock Out Cup.

Former Greenford, Ruislip and Uxbridge rider, Billy Whyte, was married last month. Top hat and tails plus horse drawn carriage too!

Nice to visit the Hawbush circuit recently. The Hammers looked smart and it was nice to see a pukka programme. Sprightly veteran, Jack South, turned in a 15 point maximum against Uxbridge Lions.

Mr. Stevens over at Newham has worked wonders with both his team and track. The scoreboard is a great help, lets have some more please.

The Second Division is again going to provide tough competition. Hendon, Wembley and Bushey look particularly well balanced. One of these three should win promotion in October. Who will go down from the First Division? Could be Hungerford.

Full marks to White City on their smart turnout and conduct. For a new side they set a good example. Manager, Bob Saunders, along with Ron Watters and Colin Wheeler form a solid spearhead. The return of veteran, Bill Pittingale, adds useful experience in reserve.

The South of England party to visit Scotland is virtually a Home Counties side. Only Barry Woodcock of Norwich is from outside the area. The team is sound but the exclusion of Mick Currey is a surprise. Mick's early season form suggests he would have been

a great asset on the tight Sighthill circuit. This is very much a gater's track. I would like to have seen the following team selected;- 1. J. Mills, Capt., 2. A. Horrex. 3. R. Mills. 4. V. Haines. 5. C. Hunt. 6. B. Woodcock. 7. J. Brooks. 8. G. Swan. 9th. G. Wallis. 10th. G. Brimson.

With the possibility of Sutton obtaining a track in the near future, plus Watford's new one, this augers well for the future. It's certainly an encouraging sign seeing new teams appearing. The Middlesex Independent can take a lot of credit for this. White City and Watford both developed from this midweek league.

The Uxbridge management are delighted with their new juniors, of whom Dave Smith and Ian Robinson are settling down nicely. The Lions have yet to win a match but this must surely come soon. The Lions are a very young side, apart from Geoff Pearce and Roger Seymour, all are under sixteen. They could use a little more experience but they are certainly not despondent.

"REVIEW" POSTBAG

May I through the columns of the "Cycle Speedway Review" congratulate Mr. and Mrs. Stevens and the Newham Hammers on giving the Bushey Saints a most entertaining afternoon of good clean fast racing when the teams met on May 22nd at Little Ilford Park.

Last year Bushey visited this track to meet the East Ham Stars, but the Stars had disbanded, and Mr. Stevens undertook to fulfill the remaining Stars' fixtures for the season, with a new team, namely Newham Hammers. He set about his task with determination and enthusiasm to the club.

This year the Newham Hammers must be rated as the most progressive and organised club of the year, having obtained new breastplates, p.a. system, programmes, scoreboard, a well laid out track with pits marked for Home and Visiting riders. And the most important, first class presentation with an unbiased steward. After the meeting one could obtain a lovely cup of char to warm the cockles of your heart. The Saints offer their congratulations to Mr. Stevens and the 'Ammers on their remarkable achievements over the last eight months.

F. MALES, Manager, Bushey Saints.

REVIEW NEWS REVIEW

Estuary have persuaded veteran, Mick Webb, out of retirement.

With John Wells, Alf Cox and Johnny Koehler returning for Hawbush, Jack South will cease to ride and become steward.

Stuart Jago has transferred from Newham to Hackney.

Hawbush have made a belated entry into the Intermediate League.

Terry Russell has transferred from Hackney to White City due to losing his first team place.

Vaughan Jones is back in action with Uxbridge Lions.

June 11th is a big day for Bushey - their first home match of the season!

Bushey's Pete Saunders is guesting for the re-formed Edmonton. Its still tarmac!

Mick Honour is doing great things at Hendon. And it's not just because Hendon have risen to the top since he took over as Manager. Mick is really on form at the moment and is providing an inspiration for the Aces.

At last the contractors have moved onto the Scrubs. Everything is being altered including size, shape, surface, centre and surrounds. White City will be away at home until they become used to it.

Denis Hall has transferred from Raynes Park to Tolworth. He could not find a team place at Morden Park, but has been given a slot with Tolworth Aces.

At last Hungerford have tempted back Bob Merrett.

The League Open Meeting at Hammersmith has been changed to June 14th.

MAY 8th - NATIONAL INDIVIDUAL ROUNDS.

Terrible weather greeted the National Individual rounds and it was fortunate that all were completed. John Grant scored a maximum in the junior at Tolworth. Barry Woodcock won the senior round at Hawbush, using his weight to advantage. Only eight riders turned up at Hawbush for the junior so all went through. Keith Burton notched maximum points in the junior at Uxbridge. Rod Mills scored a maximum in the senior, beating brother John by a point. John Brooks, coming in as reserve, won the senior round at Tolworth.
